Introducing a new style condo-hotel

Opened in 2009 adjacent to Fuchaku Beach in Onna Village, the Kafuu Resort Fuchaku Condo•Hotel operates under the concept of “a hotel stay with residence-like comfort” and offers a pleasant environment with minimum but quality services for guests, while eschewing the provision of excessive services. The all-ocean-view guest rooms are available in condo or hotel style, each of which comes in a variety of types. The hotel also has a restaurant and deli with an extensive menu of

reasonably priced, health-conscious cuisine, produced with the idea of “locally produced and locally consumed” food by Chef Hiroshi Kitagami, an expert in Italian slow food, California organic food and anti-aging cooking. March of this year saw the opening of a spa with a focus on aromatherapy and body care treatments along with the hotel’s own bridal department to manage wedding facilities on the premises, including a restaurant suitable for wedding banquets.

1. This luxurious suite boasts spacious and residence-like comfort. 2. Brilliantly sunny by day, the swimming pool area enjoys spectacular sunsets in the evenings. The poolside café and bar, deli, shop and concierge are all conveniently situated on the same floor.
